

Locally Commissioned Service for Emergency Palliative Care Medicines

Summary of the Emergency Palliative Care Medicine Pathway			
1	An agreed list of "Emergency Palliative Medicines" is stocked by those community pharmacies signed up to provide this service.	4	If the "Emergency Palliative Care" pharmacies are unable to supply the medicine required, the pharmacy in receipt of the prescription MUST contact other pharmacies until a pharmacy is found that can supply.
2	The patient's local community pharmacy MUST be the first point of call for palliative care medicines during normal working hours .	5	If there are no community pharmacies open to dispense the medicines, please contact 111.
3	If the local community pharmacy is unable to supply the medicines, good practice is that they should signpost to the nearest pharmacies signed up to provide the "Emergency Palliative Care" service to check if they can dispense the prescription (contact details above).
